

How to make Tatami coaster

①

Prepare a cloth for coaster, Goza mat, and scissors.

②

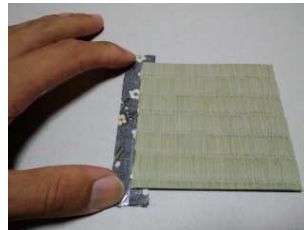

Turn the cloth backside up and cut it in 4 pieces following the cut line. Next, fold the cut cloth longitudinally in two so that white part comes inside.

③

When you rub the folded corner with your finger, cloth seal is peeled. ※It is like you stick it to the sole of the finger.

④

Paste Goza mat to the place where the folded line for the thickness of Goza mat can be seen a little.

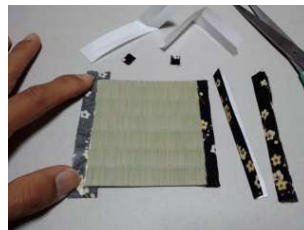

⑤

Paste the clothes together and cut the sticking part.

※ When the width of edge is the same with front and backside, it is GOOD!

⑥

Make the other 3 sides likewise.

※ Be careful not to cut Goza mat or side cloth when cutting a cloth!

⑦

When 4 sides are completed, put trash away and it is finished.

Well done!!

Use example

You can put one-flower vase or a doll on the coaster for creating Japanese atmosphere.
